

NOTICE OF TRANSFER OF OWNERSHIP FORM (NOTO)

For Stormwater Discharges Associated with Industrial Activity
Authorized by a Kansas Water Pollution Control General Permit
Under the National Pollutant Discharge Elimination System

Submission of the Notice of Transfer of Ownership (NOTO) constitutes notice that the new permittee, or an authorized representative, requests authorization for coverage under the Kansas Water Pollution Control general permit, or KDHE authorized successors, issued for Stormwater Runoff from Industrial Activity in the State of Kansas. Completion of this NOTO does not provide automatic coverage under the general permit to the new permittee. Coverage is provided and discharge permitted when the Kansas Department of Health and Environment (KDHE) receives a complete NOTO from the current permittee and a complete NOTO for the facility, and KDHE authorizes the transfer. Upon transfer, the new permittee shall assume responsibility for the annual permit fee.

Submission of this NOTO to KDHE does not relinquish the current permittee's authorization to discharge stormwater runoff from industrial activity at the site described herein. The current permittee must complete a Notice of Termination (NOT) to relinquish coverage under the general permit. Completion of this NOTO does not automatically relieve the current permittee of any civil, criminal and/or administrative penalties. Coverage is terminated when KDHE receives a complete NOT from the current permittee and a complete NOTO for the facility, and KDHE authorizes the transfer.

To be considered complete, the NOT and the NOTO must be signed by the relinquishing permittee or a duly authorized representative of the relinquishing permittee, and must include the permit number assigned to the industrial facility. The new permittee or duly authorized representative must also sign the NOTO. KDHE will notify any new permittee whose NOTO is incomplete, deficient or denied.

Please Print or Type.
